Education

KKR & KSR INSTITUTE OF TECHNOLOGY AND SCIENCES

B.Tech/CSE (CGPA: 8.0)

Jan 2023 – Present

ANDHRA PRADESH, INDIA

Technical Skills

Languages: JavaScript, HTML, CSS, Java, Python

Frameworks: React.js, Flutter, Firebase, Git, GitHub, VS Code, Netlify, Vercel Databases: Firebase

Platforms: Firebase, Firestore, Firebase Realtime Database, MySQL

Tools: React.js, Flutter, Firebase, Git, GitHub, VS Code, Netlify, Vercel Databases: Firebase

Projects

• Localized Food Rescue

Nov 2025

Localized Food Rescue is a web application that helps reduce food waste by connecting food donors with nearby people or organizations in need. Users can post surplus food and others can quickly find and request it within their local area.

Certifications

- **Web Development:** Mastered responsive web design, semantic HTML, modern CSS layouts (Flexbox/Grid), and interactive JavaScript components through practical, project-based learning
- **App Development:** Successfully completed a comprehensive certification program focused on building cross-platform mobile applications. Gained hands-on experience in UI/UX layout design, state management, API integration, and deploying functional apps to mobile environments using modern frameworks.
- **Java:** Gained a strong foundation in Core Java and Object-Oriented Programming (OOP) principles, including inheritance, polymorphism, encapsulation, and abstraction. Developed proficiency in writing clean, efficient code, managing memory, and implementing data structures to solve complex algorithmic problems.

Achievements

- **Hackathons:** Competed in 5 hackathons, driving the development of innovative software prototypes from ideation to deployment within 48 hours. Collaborated closely with team members to solve complex problems, optimize code efficiency, and present finished products to industry experts. [null](#)
